## Welcome

17TH NOVEMBER 2023

The children in school have continued to work hard this week.

We have been working on walking into school calmly and focusing on our learning as soon as we come into class after breaks and lunch. As a school, we are really improving on this.

Recently, we have introduced homework to the children and lots of them have been completing their number, spelling, and reading homework. Regular practice of these skills makes a huge difference to pupils' English and Maths, and we thank you for your support with this.

Today, it was a pleasure to welcome parents and carers of our Early Years children into school to celebrate the children enjoying World Nursery Rhyme Week. The children loved performing the nursery rhymes they have been practising.

Next week, 2H will go to Knowsley Safari Park – I know the children are all really looking forward to the visit.

During staff meeting next week, we will be reviewing our current behaviour policy. If you have any input on this, we would love to hear your views.

Have a great weekend everyone!

**Indiah** - Indiah has shown incredible resilience this week in her math. She was very open and honest at the beginning of the week, admitting how difficult she found fractions and decimals, but she did not let that stop her. She followed the success criteria and listened intently during teacher input and left every single lesson exceeding her own expectations and absolutely smashing the challenge questions - it was so great to see!

**Eva-Lily** - This girl is the epitome of Rosie Resilience. If she finds something difficult to begin with, she does not give up; she takes a couple of minutes to collect her thoughts and feelings and then dives straight back in, whether this be a challenging question in math, or learning how to serve in badminton club, she does not give in!
